This booklet is not intended to be a substitute for professional medical advice, diagnosis or treatment. Always seek the advice of your physician or other qualified health care provider with any questions you may have regarding a medical condition or treatment and before undertaking a new health care regime. Never disregard professional medical advice or delay in seeking it because of information you have read in this booklet.

The treatments described work on a subtle level and are based on experience and partially on Ayurvedic traditions. These methods cannot always be proved effective by the academic medicine of today.

In case of pain, ailments, mental or psychic problems appearing during a treatment, it should be terminated; in case of need a physician should be consulted.

Shri Mataji Nirmala Devi

## Dear Brothers and Sisters

This small booklet should help you to improve and keep your subtle system in balance to become the ready instrument for the all-pervading param chaitanya – the endless love of our Holy Mother for Her creation.

By opening up to Her power, the tremendous task, which is lying before us to give mankind its emancipation, will come to its fruition.

Although this booklet is named ‘1008 Treatments’, only a small collection of treatments will be presented here. Yet the advice and knowledge Shri Mataji Nirmala Devi has given to us in Her lifetime is overwhelmingly beyond this magical figure of 1008.

The ultimate treatment will always be the steadfast and unshakable trust – the ‘shraddha’ – into the power of Shri Mataji and us as Her beloved children. Knowing by our whole being the complete oneness with the divine being of Shri Adi Shakti, together with the complete surrender to Her Lotus Feet is the highest state of consciousness, in which the power of Her divine love flows unlimited.

### Practical advice

The many cleansing methods described should always be used with proper discrimination. As far as possible use your ability to judge with vibrations. Do not use techniques automatically or become fanatic, but keep and develop your sensitivity to feel what is right or wrong for you.

Also keep in mind that using sahaj techniques does not mean to shun traditional medical science. If medical treatments are necessary do not avoid them, but support them with vibrations.

### Source of knowledge

The amount of material from Shri Mataji’s talks, which is available in recorded and transcribed form, is vast. Try to imbibe more and more.

Please be cautious of the numerous forms of published material, which exist already on the web or in other media. Where possible, compare with original and authentic versions.

In your prayers and meditation ask to receive pure knowledge and understanding from within through the power of ‘nirmala vidya’.

# The Yogi’s Tools

## 1. Vibrations

### Shri Mataji’s picture

Shri Mataji’s photos, audio recordings and videos are a lasting source of vibrations. Keep them dear to your heart. Clean Shri Mataji’s pictures with rose water and reverently adore Her with a red bindi of kumkum.

### How to feel vibrations

*“You have to yourself feel it. How you feel vibrations, when you feel vibrations, how do you lose vibrations, what happens? All those things are just within yourself. Of course after some time we might be able to say what behavioural changes one should take. But you can find out yourself, if you want to find out what is right and what is wrong, and what is to be done to keep up the vibrations.*

*But vibrations are (in) one way extremely charitable, very charitable things. Even if you do little wrong, they may not disappear that moment, but you will get a feeling within yourself that this was wrong. After some time you find it will show that you have no vibrations and you would know that you have no vibrations.*

*So the first principle of Sahaj Dharma is, or what you call Vishwa Nirmala Dharma, is that you should be able to keep up your vibrations . . . as they are or increase them or improve on their sensitivity. The more sensitive you are, the better you are.”*

1985-0806: Chelsham Road ashram, London

### How to improve the sensitivity

- Massage your hands with oil
- Improve your Vishuddhi chakra
- Use the camphor-ghee treatment for your nose

*“Therefore you must first get this thing and real cool vibrations are coming from your hands. Like cool as if it is coming from a cooler, like this it should come from your hands.”*  
1975-0329: Mumbai

*“Actually those who suffer from low Kundalini rising, if they could rub oil on their feet and wash their feet, it's a very good thing.”*  
1976-0402: New Delhi

*“You see, to begin with, you see, it has something to do with your nervous, all right? So if your nervous system is disturbed, you may not feel it, at all. For the nervous system, best thing is to do massage. You see somebody should massage their back, hands. Also I have told many a times that you rub your hands with vibrated olive oil quite a lot, and rub these things so they become sensitive. Could be with insensitivity; but if they can feel the catches in the body, that means they're all right, only their Vishuddhi is not all right. Rub the thing on the Vishuddhi. Work on Vishuddhi, clear it out. And for Vishuddhi, if you can use, say, butter, to rub on the here and rub all these muscles, you see, with that, all these things will work out for your hand.”*  
1982-0806: Dedication and Devotion, London

*“Now what does that mean that your Vishuddhi chakra is not all right? First of all by temperament you are not a collective person - by temperament. You are not a person who enjoys collectivity much”*  
1983-0202: Vishuddhi Chakra, Public Program, Delhi

*“Shoulders are to be kept intact, but while saying just yes, you need not go on ‘yes, yes, yes, yes’. Is very, very simple thing, but it can have a very bad effect, and those who move their shoulders too much do not feel vibrations much because the chakras are not alright.”*  
1983-02.04: Sahasrara Chakra, Hanuman Road, New Delhi

### **Raising the kundalini and applying bandhan**

These are the standard practices you learn from the very beginning. Still continue to apply them with diligence regardless for how long you already practice Sahaja Yoga. You have to always feel how the kundalini is rising and that your chakras feel protected when giving the bandhan.

A good practice is also to raise your kundalini and put yourself into bandhan before leaving your home.

Perform the following actions until you feel that vibrations have improved and start flowing.

### **Clearing the left and right side**

For cleansing the left side or channel, the ida nadi: direct the left hand towards Shri Mataji's picture and put the right hand flat on or towards Mother Earth. To enhance the effect put a candle in front of your left hand. Ask: “Shri Mataji, please cleanse my left side.”

For cleansing the right side or channel, the pingala nadi: point the right hand towards the picture and the left hand towards the sky with the palm facing backwards. Ask: “Shri Mataji, please cleanse my right side.”

### **Balancing the left and right side**

For balancing the left side: take the energy from your right side by raising the right side with your right hand (the palm showing towards you) up to the forehead chakra (where the two nadis meet at the Hamsa and then cross over at the Agnya) and then bring it down into the left side. Do this several times, possibly up to 108 times.

For balancing the right side: move the right hand in the opposite direction, which means raising the left and lowering the right side.

### **Cleansing of chakras**

Keep the left hand towards the photograph whilst the right makes circular movements with your finger towards the chakra in concern. Move the right hand clockwise when you work from the front and anticlockwise when you work on someone else from behind. This applies for all chakras. Then shake off any negative energy with the right hand.

### **Energising chakras**

To improve the left side and centre of a chakra put your left hand towards Shri Mataji's picture and the right hand on the particular chakra.

For the right side place your left hand on the chakra and point the right hand towards Shri Mataji's picture.

## Giving vibrations

Giving vibrations to someone else will improve also your own subtle system as the flow of vibrations through your hands will get stronger.

Raise your kundalini and give a bandhan to yourself and then do the same to the person you are working on. Then check his or her vibrations.

Hold the left hand towards Mother's picture. With your right apply the methods of cleansing and balancing of affected chakras as described above. Work on the person till the cool breeze is clearly felt above the Sahasrara.

Finally, raise again the kundalini and give a bandhan to the other person and then to you.

Remember, that you are not the 'doer'. Let the intelligence of your kundalini guide you. Say: "I'm not doing it. Mother, you are doing it."

*"Even when you are giving vibrations to other people, I have noticed that you are not in thoughtless awareness. If you give vibrations in thoughtless awareness, you will not catch anything."*

1976-0330: Gudi Padwa, Delhi

*"Loving means giving - doing without any expectation - just doing and enjoying. The greatest is giving vibrations. That is 'amruta'; vibrations do not die."*

1980-1109: Shri Mahalakshmi Puja, Hampstead, London

*"By giving power you mean that you give the vibrations to those which are other things, not human beings - like all other living things, like plants and animals. And you find that they also change in their productivity, in their beauty, in their taste, in their colour, in their glow."*

1977-1231: Self Realization, London, UK

## Giving bandhan on the palm of the hand

The power of a 'circular bandhan' over the palm of your left hand is an appeal to the Divine to grant help. As with all methods, it works with a pure heart and being thoughtless, in the state of yoga. This type of bandhan can be done individually or collectively.

With your right index finger write into the palm of your left hand whatever you want to protect and give it a bandhan. Be thoughtless and leave it to the Divine to solve the issue. Avoid any specific expectations of what should happen.

## Collectivity

Shri Mataji has stressed multiple times that Sahaja Yoga as an evolutionary breakthrough for humanity is a collective process. We have often experienced that the oneness of attention or desire of a local or international collectivity of yogis, the 'sangha' of the realised souls, has a multiplying effect. It is a great force for the betterment of this world. Please use it!

The collective naturally soaks up shortcomings in vibrations of an individual. One could say, the sum is more than its parts.

## Dedication and surrender

Surrendering everything with complete faith at the Lotus Feet of our Holy Mother is the ultimate way to remove your obstacles.

Be like Shri Ganesha, Shri Mataji's beloved Eternal Child.

In your meditation, when your attention is settled in the Sahasrara chakra, feel Shri Mataji's Lotus Feet above your head. Surrender everything to Her, which comes to your mind.

*"... gravity is the integration of your Shradha, of your Dedication, and your surrender. Without that gravity you cannot nourish yourself, you cannot grow."*

1985-0629: Guru Puja, Paris

## Puja – the 'offering'

Taking part in a puja or performing a puja yourself to the Divine in its different aspects is one of the subtlest and sweetest forms of cleansing. As we express in it the devotion, respect and thankfulness to God we receive in return Divine blessings.

## Love – the 'bhakti'

*"... the dynamic power of love can transcend all the evil powers of the world."*

1973-0828: Shri Krishna Puja, Mumbai

Be confident that your Divine Mother and Divine Father love you all the time. Whatever happens, be sure of their constant loving attention and caretaking.

And also remember to love yourself.

## Giving Self-Realization

Shri Mataji has mentioned again and again, that giving self-realization is one of the most important tasks for Sahaja Yogis. Establishing more and more realised souls is necessary to lead humanity into the next step of evolution.

Apart from fulfilling this important mission it is nourishing and it develops our own subtle system. In this way both, the one who receives and the one who passes on realisation benefit enormously.

## 2. The Five Elements

*“... but first of all you must reach your own essences. Once you reach your own essences, you reach the essence of all the elements and then you can handle the elements as you like”*

1987-0506: Going deeper - the essence of elements, Sidney

### Earth element – Bhumi Devi, Muladhara chakra, prithvi tattva

*“When you are young, not married, keep your eyes on the ground; Mother Earth gives you that innocence by which you develop that principle within you, (it) is (a) very important principle. It's such a pure principle”*

1980-0727: Guru Puja, London

*“So it is the primordial power (kundalini) which is coming out of the Mother Earth. Mother Earth itself acts like a Mother”.*

1997-0907: Shri Ganesha Puja, Cabella Ligure

*“After Realization you do become subtle enough to feel that magnetic force (of Mother Earth). And you can ask the Mother Earth to take away your problems, to take away your sins, She'll suck (it) in.”*

1980-0406: Easter Puja, Dollis Hill, London

*“... when we were young, we were told to see the Mother Earth all the time, not to raise your eyes higher than that. The reason is the Mother Earth soothes your eyes.”*

1979-0308: How to Realize the Self, New Delhi

*“The Mother Earth is one of the elements which has created some of our centres, so She sucks in some of your problems. So put your feet directly on the Mother Earth, just like this. If it is easy for you to take off your socks also, it would be a good idea, because mostly socks are of nylon, and they insulate you completely from Mother Earth. If you feel like taking off, you should take it. It would be a good thing.”*

1979-0726: Public Program, Enfield, London

*“Like this Mother Earth bears our load so well, because she's so great.”*

1981-0719: Guru Puja, Chelsham Road ashram, London

### Contact with Mother Earth:

Select an appropriate undisturbed place in nature. Sit down and place both your hands onto the ground. Ask Mother Earth to please take away and absorb all negativity in you. Be completely open to Her caretaking response. Try for a while to put your attention on your Muladhara chakra.

Walk barefoot and when possible look into the blue sky.

### Shoe beat:

Sit on the ground. Raise your kundalini and put yourself into bandhan. Place both your hands on the ground in front of you. Take the mantra of Shri Adi Bhumi Devi and Shri Ganesha and ask “Kindly please absorb all negativity”.

Create a vibrated area in front of you by drawing clockwise a circle seven times with your right hand on the ground. Keep your left hand besides you flat on the ground.

Now write whatever negativity you want getting cleared out with your right index finger into this place. Then take your left shoe in your right hand and with the heel-part of your left shoe beat this spot 108 times. Do not look at it; rather look into the sky. Be thoughtless.

After finishing, ‘erase’ the spot with the same shoe.

Repeat the procedure for the next issue. Shoe-beat your name as symbol for your ego and super-ego.

When finished give thanks to Mother Earth for Her absorbing and bearing the negativity. Finally raise your kundalini and do a bandhan.

It is custom, born out of respect, to only shoe-beat the negativity affecting your parents and spouse, but not their names.

### **Salt:**

Salt represents the guru principle, the protector of dharma. Therefore it has the capacity to cleanse, to re-establish dharma.

*“The Void is covered with water, and in the water there is salt and the salt is nothing but is the Dharma.”*

1978-1005: Talk to Sahaja Yogis, London

### **Water element – Shri Varuna, Nabhi chakra, jala tattva**

*“As you have seen that water element is very good for treating people for the lower chakras, up to the heart chakra, because the water and salt can help you for the Nabhi chakra and because the salt is the earth element and what you call it is essence of the ocean and the essence of the ocean is in the Bhavasagara. So we can use salt water for clearing the lower chakras”*

1977-0126: Bordi Seminar

### **Foot-soak:**

It is the standard daily cleansing method done every evening. Take a suitable plastic bowl and fill it with water so that your ankles are covered. Then add about two table spoons of salt and dissolve it.

The water temperature depends on what you have to clear: warm for left side issues, cool for the right side. Sit in front of Shri Mataji's photo with a candle in front. Give a bandhan to the water and use the mantra of e.g. Shri Samudra Devata or Shri Jala Tattva. Then prepare yourself appropriately for meditation.

Put your feet into the water with both hands showing towards the picture. The combination of water, salt (earth element) and fire will cleanse all your lower chakras up to the Nabhi.

Other cleansing methods can be applied alongside.

After finishing, rinse your feet with fresh water. Dispose the water into the toilet. Don't look into it. Additionally, you can wash your hands afterwards.

Stay in the foot-soak for no longer than 10-15 minutes. Replace the salt water if you want to continue foot-soaking.

### **Hand-soak:**

Is used in a similar manner to get rid of negative vibrations which have been taken up

by your hands (for instance after giving massage to someone). Put one hand towards Shri Mataji's picture and soak the other one in salty water; preferably warm water for the left hand and cool water for the right hand.

### **Natural waters:**

The cleansing effect of lakes, rivers, other water courses and above all the ocean can be very enjoyable. Before starting pay your respect to the water. Then you can do foot-soak, immersing or swimming.

Swimming itself can be a meditative experience.

### **Room cleansing:**

Use vibrated water in a spray bottle or similar device. With your attention in Sahasrara, spray the room in all places, especially in dark corners. Have the window open during this cleansing to enable negativity to evade.

You can take appropriate mantras during this procedure.

### **Fire element – Shri Agni, Swadhisthan chakra, tejas tattva**

*“Fire is a purifier and it is a melter, it melts your heart. This fire melts your heart and you feel the compassion”.*

1978-1005: Talk to Sahaja Yogis, London

Use fire and light to cleanse your left side and Agnya problems. **Be cautious not to burn yourself, specifically if you put candles at your back!**

### **Candle treatment:**

Mother has particularly recommended using larger candles that give a bigger flame, otherwise the technique is not so effective.

A candle treatment can consist of numerous combinations:

- Light a candle in front of the photograph.
- Use a second candle by moving it up and down on your left side, using the mantras of the left side.
- Use a candle to give clockwise (full-circle) bandhans to the affected chakras on the left side.
- While the left hand points towards the photo, keep a burning candle in front of your left hand. The right hand is to be put on or pointing towards Mother Earth, which sucks in all the negativity.

- Use a candle behind or near your left Swadhisthan chakra while meditating.
- To improve the Agnya chakra look through the flame and at the bindi on Mother's forehead. Do not focus on the flame. The light element clears out all the negativity.

#### **Camphor treatment:**

Burning camphor has a stronger effect than the fire of candles. Use a special small metal pot (with a wooden handle so not to get burned) that can contain the camphor while burning. Camphor usually comes in form of small tablets. Put one or two in the pot and light them.

Keeping a window open is a good idea.

For your own safety someone else should apply the treatment for you. It is strictly **avoided during pregnancy** and for people with strong right side problems (e.g. hot liver).

#### **'Bad Eye' treatment:**

Put some mustard seeds, salt and dried chilli on a small paper, wrap it into a small packet. Now holding the packet in your hand, give seven bandhans to the person requiring treatment. Then burn it safely and dispose it. (Note, there are a few variations of this technique.)

#### **Ajwan treatment:**

This is effective for left Muladhara issues. Use a small vessel or tray and put charcoal into it. Light it and put a teaspoon of ajwan seeds on it so that smoke develops. The smoke should engulf your Muladhara chakra. Together with the heat this clears left side problems and also fungal infections. This treatment is **not for pregnant ladies**.

#### **Three-candles treatment:**

This treatment is for clearing the whole left side. Sit on the floor and put one candle in front of your left hand, which points to Shri Mataji's picture; one candle behind you at the left Swadhisthan and a third one to your left. Alternatively, you can use the candle on the left to move it up and down your left channel up to the superego at the back of the head.

#### **Paper burning:**

Give yourself a bandhan. Write the issue on a piece of paper, draw a bandhan seven times in spiral form (moving from the inside to the outside) around the word without interruption and without the lines touching each other. Then burn the paper in a suitable place (e.g. a toilet with an open window) without looking directly at it. Flush the ashes.

#### **String burning:**

This is a specific method for clearing the left side. Take a long thin cotton thread (no plastic!), suitable to make seven knots.

Begin with reciting the Shri Ganesha mantra four times. Make a loose knot and place it on the area of the Muladhara on your left palm. Now cover the spot with the Muladhara area of your right hand and recite the Shri Ganesha mantra. Ask Shri Ganesha to put all your Muladhara negativity into this knot, remove the right hand and tighten the knot completely.

Move the thread to your thumb, the Swadhisthan finger and proceed in the same manner as before, now taking the Shri Nirmala Vidya mantra. Follow this procedure through all the chakras with the mantras to Shri Gruha Lakshmi, Shri Shiva Parvati, Shri Vishnumaya, Shri Mahavira, Shri Mahakali-Badrakali-Kali and finally Shri Kalki.

When finished, lay out the string in a clockwise circle on your left palm - the beginning Muladhara part at the corresponding place in the palm and the Sahasrara part at the Sahasrara.

Pray to Shri Mataji: "Shri Mataji, You who are the Adi Shakti, please remove all negativity and attacks that are preventing my spiritual ascent and place them into these knots."

Now dip the string in mustard oil. Run your fingers along the string to squeeze out the excess oil. Hold the string with tweezers at the Sahasrara end and burn it over a flame. While burning recite the Shuddha Ichha mantra and look into the flame. Finally give thanks to Shri Agni for clearing your chakras. Try to be thoughtless during the whole process.

A **simpler method** is to only recite the mantras while tying the seven knots without arranging the string in that particular way as described above. The rest remains the same.

#### **Havan:**

The havan is a very ancient, sophisticated fire ritual and the noblest of all fire applications. All kind of problems can be offered to Shri Agni to burn away negativity. Usually it is performed in the open as a collective event.

Nevertheless it is possible to conduct a small havan at home. The whole ceremony has to be performed with the necessary respect and solemnness.

In simple terms, prepare a suitable flat plate about 30 cm wide, ideally an Indian 'thali'. Draw a swastika with kumkum at its centre, place four long candles at its four corners and spread rice and little vibrated kumkum in a circle around the swastika to cover the remainder of the plate. You can also add four fruits (e.g. apples) outside near the plate.

Add a dot of kumkum and incense to each of them. Try to create an auspicious arrangement.

Place a picture of Shri Mataji with a candle in front in a way that you can face Mother during the ceremony.

Now you are ready to perform the havan. Following an invocation to Shri Agni Devata, the offering of mantras together with havan samagri and other ingredients is made to purify oneself and the area. At the end some negativity is offered to the fire and the havan concludes with Shri Mataji's mantras.

You can feel the cool vibrations from the fire, even when close to it.

### **Air element – Shri Vayu, Heart chakra, vayu tattva**

#### **Breathing exercise 1:**

When in meditation put the attention on your breathing. Observe the stop at complete inhalation and exhalation. Slow down your breathing and elongate the stops in a natural way.

#### **Breathing exercise 2:**

For improving the Hamsa chakra do the alternative nostril breathing. You inhale only with one nostril (e.g. left) and exhale with the other nostril (i.e. right). Now inhale again through the same side (i.e. right) and exhale with the other (i.e. left).

#### **Breathing exercise 3:**

Watch Shri Mataji's video: "Prana & Mana Breathing Meditation"

### **Ether element – Vishuddhi chakra, akasha tattva**

*"When a seeker ascends, he attains subtle Akasha, the Subtlety of Ether element. There is no need to activate this element. If a seeker has some problem, this element is omnipresent. It is present everywhere. Your attention immediately reaches where it is required".*

1999-0214: Shri Siva Puja. Delhi

*"We call it 'Akasha' in Sanskrit. This ether now as you know, we are using for our television, for our radio, for every sort of a collective work. So we have to be in charge of the ether element as yogis. And that is the subtlest of all, in the sense that you permeate everything with that, and is above all. Like plastic also permeates into everything into matter, into everything up to the air. But it cannot enter into ether. So the negativity cannot enter into ether. So when you enter into your ethereal zone, you actually enter into the area, which is thoughtless awareness. So to achieve your ethereal state, you have to expand your*

*thoughtless awareness."*

1983-0828: Shri Krishna Puja, Geneva

Look into the sky, put your both index fingers in your ears and chant the "Allah Hu Akbar" mantra 16 times. Feel the greatness of God.

## **3. Mantras and Yantras**

*"Now the name of your Mother is very powerful. You know that is the most powerful Name than all other names, the most powerful mantra. But you must know how to take it. With that complete dedication you have to take that Name."*

1982-0731: Dedication through Meditation, Cheltenham

The knowledge of affirmations and mantras is extensively dealt with in the Sahaja Yoga Mantra Book. Please refer to it.

### **Types of mantras**

Use **affirmations** to ask the Divine Mother for supporting your ascent and re-establish your dharma and the divine qualities in your chakras, when spoilt.

The **mantras and prayers** will bring you deeper, connecting you to the pure divine essences represented by the deities to enable for you a steady growth and ascent. Gradually their qualities will be awakened in you. Always use them with the proper feeling of devotion.

**Bija mantras** are mantras consisting of syllables, which may form the core (or 'seed') of other words. See the sahaj mantra book for more details.

**Specific prayers** like the Atharva Sheersha Ganesha, the Kavach of the Devi, or the Hanuman Chalisa will create for you a continuous support and protection on your life's journey.

The Atharva Sheersha Ganesha or the mantras of Shri Ganesha and Shri Kartikeya taken together can be used to cleanse every chakra one by one.

In your heart bow down in front of both Deities and pray: "Shri Ganesha, please remove all obstacles and Shri Kartikeya, please destroy all negativity in my . . . chakra."

### Muladhara chakra meditation

This specific meditation for the Muladhara chakra addresses each of its four petals and asks to grant the bestowing of their qualities on you:

#### First petal pointing downwards:

“Shri Mataji, please bless me with the joy of Brahmanand.”

#### Second petal on the left:

“Shri Mataji, please let Your Ganesha Tattwa remove all the obstacles in my ascent.” and “Shri Mataji, please fill each cell of my being with the majesty and dignity of the Pure Spirit.”

#### Third petal on the right:

“Shri Mataji, please fill each cell of my being with the complete dedication and surrender of Shri Ganesha to Your Holy Lotus Feet.”, “Shri Mataji, please bless me with the absolute wisdom of Your Shri Ganesha.” and “Shri Mataji, please bless me with the pure knowledge of Your Divinity.”

#### Fourth petal pointing upwards:

“Shri Mataji, please bless me with the complete fearlessness of Your Shri Ganesha.” and “Shri Mataji, please fill each and every cell of my being with the nectar of Your Divine Love.”

### Mantras for destroying negativity

Those mantras can be found in the mantra book. Here is just one of them mentioned, which awakens the power of Shri Durga:  
OM AIM HRIM KLIM CHAMUNDAYE VICCHE NAMAHA.

### Symbols (yantras)

The ultimate purpose of any yantra is to trigger or deepen the state of meditation. The OM and the swastika, both associated with the Muladhara chakra, are the most famous.

The clockwise and straight, untwisted swastika can be used to ward off and protect against negativity. While in India the swastika is a common symbol, the West has altered its presentation and perverted the meaning of the swastika, hence it cannot be used publicly.

The swastika can be used for cleansing in several ways:

- To clear a room, use a candle and draw with it a swastika in the air in each of the

four directions of the room and on the floor.

- You can use this method only by means of your attention (in thoughtless awareness) and such apply it to any place. Just project or draw the swastika over any object.

### Mantras of deities with their respective healing quality

Shri Ganesha	Shri Vignanasha	The destroyer of obstacles
Shri Kartikeya	Shri Anamaya	The one who saves us from illness
	Shri Roganashaka	The remover of illnesses
Shri Athena	Shri Peonia	The physician and healer
Shri Fatima	Shri Shafia	The healer
Shri Adi Guru Dattatreya	Shri Jvaranashaka	The destroyer of fever, illness and suffering
	Shri Shokadukhahara	The remover of anxiety and pain
Shri Rama	Shri Bhavarogasya bhesaja	The healer of diseases
	Shri Janamaranavarjita	The conqueror of illness and death
Shri Hanuman	Shri Roganashaka	He destroys all diseases

### Finally ...

Another simple way to relate to the Deities and to Shri Mataji is a heartfelt prayer. Ask honestly from your heart for forgiveness or express your thankfulness.

Whilst being in meditation, a beautiful expression of love is also to offer something to the Divine just with your imagination. You can offer a beautiful flower or prasad at the Lotus Feet of the Deity.

## 4. Introspection and Attention

Don't react, just see! Where is my attention?

Have I become the Spirit? I am a Sahaja Yogi!

*"Firstly, you can see for yourself how your mind works. What does it do? How it reacts. This is what one has to watch, which I call as 'introspection'. What sort of plans your mind takes to? What does it think is the best? In that thinking, thought process, what is the most important way to look at yourself? The first and the foremost is that you should know how you react to someone."*

2001: Shri Ganesha Puja

Be the witness of your body.

*"You have to become thoughtlessly aware, means you go beyond the thinking mind. Now what does think in your head is your ego as I told you yesterday, or your conditioning, and you go on reacting to it all the time. But after getting Realization and after achieving that state, you don't react, you just watch, and that watching itself is very powerful. You're watching silently is very, very powerful and it works, it works wonders."*

1998-0706 Public Program, Holland Park School, London

Be the witness of your emotions.

*"So you don't react. By not reaction, what happens? That the thoughts that come to you, come from the future and the past. And you are lost in those thoughts because they are jumping on the cusps of these thoughts. When the Kundalini rises, the thoughts are like this. She elongates those thoughts and a space is created which we can call it as pause or Vilamba in that state you become absolutely peaceful, you don't think anymore. We call it thoughtless awareness that Jung has described. That means you watch anything just as a witness, you see everything as a witness."*

2000-0601 Public Program, Los Angeles

Be the witness of your mind.

The attention, 'chitta' or 'chit shakti', is seated in our liver and is a most powerful tool in the practice of yoga.

*"Wherever you put your attention that works out. When you are realized then your attention is realized. Wherever you put your attention it works like a spade it works like*

*a sword, it works like a loving hand, it works like [?], it works like a comforting heart. It is an enlightened attention in your stomach."*

1978-1005: Talk to Sahaja Yogis, London

*"Attention, when it works through your eyes can also go to wrong things. Everywhere where the attention moves it can do wrong things if it is adharmic."*

1978-1005: Talk to Sahaja Yogis, London

When you meditate and your attention is in the Sahasrara be aware that Mother's Lotus Feet are just above your head, emanating the blissful param chaitanya.

# The Application

## 5. Treatments for Specific Issues in the Chakras

Generally for left or right side problems use the methods described under the chapter 'Vibrations – cleansing and balancing'.

Use introspection to detect patterns of imbalances (in emotions, thoughts, behaviour) and avoid that your issues come back again and again.

Generally speaking, if you are a left-sided person see that you become more active. If you are right-sided then you need to get to the centre by developing your witness and detachment qualities.

It is possible that some issues come from a combination of two or more chakras. In this case you have to treat them together.

### Left side issues - emotional side, ida nadi

*"... emotions are nothing but wishes. These are unfulfilled desires"*

1981-1029: Guided meditation on prana and mana, London

Desire is our prime mover, the power by which we exist and the first cause for our acting or seeking. Emotion is born out of desire, which has not yet materialised. Therefore the left side is our emotional side.

#### Reasons:

Lethargy of organs or psyche, possessions. Indulgence in the past, day-dreaming, laziness, lack of self-discipline, emotional pains of all kinds and extremes, being over-emotional, stuck in conditioning and habits, drugs, accepting domination.

#### Treatments:

Fire in form of candles, burning camphor, fire itself and sun rays to heat up the cold of the left. Be physically and mentally more active, replace self-indulgence by helping others. Eat more protein-rich and spicy food.

#### Mantras:

Shri Mahakali, Shri Bhairava and Shri Surya to balance the left side

### Right side issues – physical and mental side, pingala nadi

#### Reasons:

Over activity – physically and mentally, too much thinking and planning, neglecting emotions, domination of others, egoism, thinking only you are correct and are the best, fanaticism of any kind, asceticism, emotions which hurt others, materialism, extremes in sports, all -isms.

Your system gets heated up, developing dryness.

#### Treatments:

Water treatments including drinking more liquids, earth treatments, developing your devotion, attitude of 'not I, but You do'.

Put an ice pack on your liver to cool it down, eat more carbohydrates and sour fruits, enjoy music and poetry.

*A person supposing is, has got a cancer of throat, then he should take salt. If he has a right hand side problem he should take sugar.*

## 6. Specific Treatments

Medical health advises have been kept to a minimum as there can be many factors contributing to a sickness and one should not generalise. The individual context has to be always taken into account. Not all treatments can be applied to everyone. For example babies, pregnant women, the elderly or sick people need a different approach.

For all treatments try to see what works best for you and use always your discrimination.

You find in the Appendix some suggestions for talks of Shri Mataji where She refers to health issues.

### Common cold

*“And there’s a simple grandmother’s recipe for this that you take and beat a little salt and butter and put that in your throat and in sinus, little warm so that it clears out and the salt absorbs the cold “*

1979-0615: Public Program, Reading

Drink **tea** with a little **vibrated butter** in it. It will sooth your throat.

Another treatment for a sore throat is salt. Dissolve some **vibrated salt in water** and use it for gurgling.

Inhale some **ajwan smoke**. Put a charcoal tablet into an appropriate metal vessel or tray, light it and add ajwan seeds to the top so that smoke emits, take a towel over your head and inhale the smoke for several minutes. When you are done keep the head warm with the towel. Don’t expose yourself to cold air for at least 30 minutes.

Try a **camphor-ghee treatment**. It helps for blocked sinuses and headaches caused by their congestion; also it improves the sensitivity of your hands.

Following is a description of the procedure:

Melt cow’s ghee (10 parts) and add suitable camphor (1 part), mix till camphor is dissolved and store it in a dropper bottle.

For application put the bottle in warm water to liquefy the mixture again, put 2-3 drops into your nose with your head tilted backwards and inhale with a deep breath through your nose. Best before going to bed.

Belapur Newsletter 06/2014, Advice from an Indian SY doctor

### Ear ache

Heat olive oil with few garlic cloves to get them brown, cool the oil sufficiently down and put some drops into the ear, close with a cotton swab.

Onions can be used to help in **sinusitis** or **Hamsa problems**. Cut an onion in half, heat it up to become soft and apply to your Hamsa and sinus region as warm as easily bearable.

### Diet (from the New York lectures, 1983)

Eat according to your type. Left-sided persons should take fewer carbohydrates, but eat proteins. Right-sided persons should do just the opposite and eventually keep a liver diet

In general, do not eat meat from animals bigger than you.

Vibrate your food with a bhandan (three times clockwise) and the mantra to Shri Annapurna. Also vibrate the water you drink.

Wash your hands before you eat.

Eating with your hands like in India vibrates the food more.

*“Say you are fond of food - many people are, I know that. The tongue is the worst of all. If you can control tongue, you have controlled at least fifty per cent of your sense organs.”*

1984-0422: Easter Puja, London

### Diet for a ‘hot liver’

#### Symptoms:

Right Swadhisthan and right Nabhi catches, a restless mind, bad attention, no joy, heat or pain in the liver region, nausea and thinning down.

#### Avoid:

Other meat than chicken or fish. Fried, fatty or oily foods, over-spicy food, coffee and black tea, white bread, butter, ice cream and chocolate

#### Dietary treatment:

Take cooling food like white rice, yoghurt, sugar, ginger, vegetables and salads, organic radish leaf tea with sugar, roasted chick peas (chana), fruits, grape juice.

**Meditation:**

Put your right hand towards Mother's picture and the left on the liver (below the rib cage on the right side). Ask: "Please cool down my liver and give me a pure attention."

Use an ice pack and cover your liver area. You can wrap it in a cloth to be able to bear the cold.

**Diet for a 'cold liver'****Symptoms:**

Left Nabhi and Swadisthan catch; an enlarged, lethargic liver; lethargic temperament, sleepy, left sided, not much thinking, allergies, arthritis, cirrhosis

**Dietary treatment:**

Eat chick peas (chana), no rice or carbohydrates or milk, less sugar

## 7. Practical Techniques

**Vibrated water, salt, sugar, oil, kumkum**

Still available are those treasures, which have been vibrated by Shri Mataji Herself.

If you have to replenish the substance always put the vibrated essence first and then add the new one.

If such source material is not available, use Shri Mataji's picture to get items vibrated. Place them in front of Her picture for at least one day.

*"So these vibrations, through the water now, pass into your stomach and they establish Dharma there, the proper relationship . . . All those waters and all that we talk of 'curing water' are nothing but vibrated waters."*

1978-1005: Talk to Sahaja Yogis, London

**Coconut**

The coconut is a strong absorber of negativity. It can be used during pujas and havans, but also to cleanse your home from negativity.

Get a proper shaped coconut with the 'three eyes' not leaking, which also contains sufficient water and draw a swastika with kumkum on it.

Use an appropriate vessel (a 'kumbha'), put some vibrated water into it and place the coconut on top, the 'three eyes' showing upwards. Remove and dispose appropriately after one week, either by burying in a garden or offering it to a river or the sea.

**Chillies and lemons**

Lemons are particularly used to clear the right and chillies the left side.

Vibrate the lemon and/or chilli by keeping them in front of Shri Mataji's picture for one day. Then cut off a small part of the lemon peel at the stem side. Brake off the stem from the chilli. Put them under your pillow while sleeping. Next day you discard them without looking at them.

You can use the lemon also for sucking negativity from particular chakras by placing them on the respective area.

Take a vibrated lemon or lime with you in your pocket when you leave home for a place with heavy vibrations; it will absorb negativity.

**Matka treatment**

This technique is a strong remover of negativity.

First vibrate seven lemons and seven chillies keeping them in front of Shri Mataji's picture for one day. Get an earthen pot ('matka') or other container.

From the lemons remove a part of the peel at the stem side and apply a dot of kumkum on the lemon's white. Remove the stems of the chillies and apply kumkum as well. Put all into the container, add little vibrated water and close the container. Ask Shri Mataji, that the matka will absorb all negativity.

Keep the matka at the head-side of your bed on the floor. Open the cover only during night while sleeping. In the morning close it. Never look into the matka. After seven days dispose the whole matka. If the matka starts smelling badly sooner, dispose it earlier.

# The Extras

## 8. General Advice

### Bhoots and badhas

Bhoots are unsatisfied dead souls, which have got access to your mind and chakras and act like a parasite to satisfy their needs.

Badhas are negative energies, which attach to specific areas only.

*“Badha is always on the centres or on your organs. . . But badha doesn't have its arbitrary movement. As you move the Kundalini, the badha moves.*

*But a bhoot is arbitrary. It moves. It will be one moment here, it will be one moment there. It will move this side, it will move that side. It will go to the right heart, then it will come to the left heart. If it is arbitrary behaviour that means it is not controlled by your movement of your fingers.*

*How will you take out the bhoot of other people without getting yourself into it?”*

1980-0517: Informal talk with yogis, Arlesford, UK

### Treatments include:

- Shoe-beat and havan
- Drinking of water with vibrated salt against bhoots from false gurus
- ‘Bad Eye’ treatment: wrap some mustard seeds, salt and dry chillies in a paper and form a small ball. Put in your right hand and make bandhan around the person. Then burn it
- Make a snapping noise with your right middle finger and thumb over an affected chakra
- With all your shraddha shout in your attention at the intruder: “In the name of Shri Mataji Nirmala Devi, who is the Adi Shakti, I command you: Get out of my system!” And: “Take a new birth!” or “Go to h. . .!”

### Children specific

Till the age of five you should give a massage to your children every night (before they go to bed) with oil. Afterwards apply some powder and clean it. Their Sahasrara needs lots of oil. Get a proficient yogi to teach you the proper technique as it is done in India and as recommended by Shri Mataji. It will sooth down the temperament of the child and make them peaceful.

To remove catches in babies use a small silver cup with water, which you have vibrated before in front of Mother's picture. With it give a bandhan seven times to the child. Afterwards dispose the water in the toilet.

### Clothes

Always wear an undershirt in cold and hot season. Otherwise sweat would affect your centre heart adversely.

In the cold season protect your Vishuddhi chakra and head.

### Eyes

- A picture with Shri Mataji's hands is good for your eyes, put a candle in front and look at the hands for some time
- Do the candle treatment as described under the section ‘Fire’
- Hold the candle in front of your Hamsa. The warmth will soothe and relax
- Look at the green of grass and trees

### Feet

Go barefoot wherever possible. Wear natural materials for socks and shoes. If the skin is too dry, apply a good-quality oil.

### Food

Vibrate the food you eat to remove bad vibrations and satisfy your Nabhi. Hold both your hands over the food and take the mantra of Shri Annapurna. Then vibrate the food with a circular bandhan and shake away negativity. You can feel its cool vibrations even if it the food is served hot. For drinks use the mantra of Shri Jala Tattva.

### General

Avoid using plastics. Use natural soaps.

### **Gums and teeth**

To strengthen your gums rub them softly with the index finger using a mixture of vibrated salt and olive oil. If you have an inflammation take only oil.

Use good neem toothpaste from Indian stores.

### **Hair**

The hair style should leave the forehead uncovered from hair; eyes should not be covered, especially with children.

### **Hamsa and nose**

Put few drops of slightly warm melted purified butter (ghee) with a dropper into your nose and sniff it up.

It avoids dryness of the inner lining. Apply it at night before sleeping.

### **Massage**

Massage your head regularly, or at least each Saturday evening with oil, especially your Sahasrara. Wash the oil off the next morning. You can use e.g. almond oil or hair oils from the Indian shops (cooling coconut for the summer, amla, jasmine, jabakusum, cantharidine, etc.)

Don't go out into cold weather after your hair has been oiled.

To get a good hair massage from a yogi is especially enjoyable, as it also will improve your vibrations. For this reason you should aim to get a massage only from realised souls.
